

The Tolly Group Selects VeriWave to Conduct Wireless LAN Testing

The Tolly Group and VeriWave Cooperate in Offering WLAN Testing for Network Equipment Vendors, Enterprise Users and Carriers

Beaverton, OR and Boca Raton, FL - September 19, 2005 — VeriWave, Inc., the leading provider of test systems for performance analysis of wireless local area network (WLAN) products, announced today that The Tolly Group, the authoritative, unbiased source for IT research, certification and testing, has added the VeriWave test tool to its arsenal for wireless LAN performance testing. The VeriWave testing solution will be incorporated into The Tolly Group's test labs and used to conduct customer and industry sponsored tests.

"As The Tolly Group continues to expand the areas in which it conducts fair, accurate and well-documented tests, the proper testing tools become critical," said Kevin Tolly, President/CEO/Founder of The Tolly Group, "VeriWave's leadership in WLAN testing with its unique capabilities of testing such critical technologies as Voice over WLAN, made our choice easy. We are looking forward to partner with VeriWave in offering innovative, comprehensive, and impartial tests of WLAN equipment."

"Through our collaboration, The Tolly Group will be able to conduct tests of wireless LAN equipment that were previously not possible, including testing of mission-critical applications such as VoWLAN, and large scale network tests," said Eran Karoly, vice president of marketing, VeriWave, "VeriWave is proud to be associated with The Tolly Group, and assist Tolly Group engineers in delivering fair and unbiased testing."

The Tolly Group recently published its product review of the VeriWave VoWLAN Analysis Test Suite, which is available on the Tolly Group's web site: <http://www.tolly.com/DocDetail.aspx?DocNumber=205130>

About VeriWave

VeriWave is the leading provider of test systems for performance analysis of wireless local area network (WLAN) products. VeriWave's products are used by equipment manufacturers to accurately analyze the performance of their products, as well as by carriers and enterprise users to make the right choice when selecting WLAN equipment for deployment in their networks. For more information about VeriWave, call (503) 473-8350, or go to www.veriwave.com.

About the Tolly Group

With more than 15 years of hands-on experience with emerging and strategically embedded Enterprise information technologies, The Tolly Group has a wealth of knowledge pertaining to new and existing technologies. The company leverages that expertise to provide useful context that guides vendors in their marketing efforts and users in their technology assessments and deployments.
