

VeriWave Expands in Asia by signing Korean Distributor

Tricomtek will represent VeriWave in Korea

PORTLAND, OR — November 10, 2005 — VeriWave, Inc., the leading provider of test systems for performance analysis of wireless local area network (WLAN) products, announced today that it has signed a distribution agreement with Tricomtek to re-sell and support VeriWave's products in Korea.

Tricomtek provides protocol engineering solutions for the real-time communications industry in Korea. It has supplied a variety of protocol analyzers and performance testers to about 80 customers including Korea Telecom since 1999.

"Our expansion in Asia continues with the distribution agreement we signed with Tricomtek, Korea's leading protocol analysis distribution organization," said Chris DeMonico, VeriWave's chief executive officer. "When looking for a distributor in Korea, a solid track record of supporting Korea's network equipment manufacturers was key to VeriWave. Tricomtek's proven customer relations and excellent support structure will enable us to offer the best possible service to Korea's networking community and guarantee the satisfaction of our customers."

About VeriWave

VeriWave is the leading provider of test systems for performance analysis of wireless local area network (WLAN) products. VeriWave's products are used by equipment manufacturers to accurately analyze the performance of their products, as well as by carriers and enterprise users to make the right choice when selecting WLAN equipment for deployment in their networks.
