

VeriWave appoints Jim Kinnebrew as VP of Sales

Test industry Veteran and former Spirent executive brings a wealth of experience in selling network test systems to equipment manufacturers, carriers and enterprise network managers

PORTLAND, OR — January 5, 2006 — VeriWave, Inc., the leading provider of test systems for performance analysis of wireless local area network (WLAN) products, announced today that it has appointed Jim Kinnebrew as vice president of sales. Mr. Kinnebrew will focus on expanding VeriWave's customer base in the US and worldwide.

Mr. Kinnebrew is a veteran sales executive with over 25 years of experience in the communications sector. Prior to joining VeriWave, Mr. Kinnebrew was Vice President of Eastern Operations at Spirent Communications Corporation. Prior to Spirent, Mr. Kinnebrew served as Vice President, Americas for Nortel, responsible for all sales and support operations throughout the Americas. Mr. Kinnebrew has an extensive background in both datacom and telecom having held Vice President of Sales positions at British Telecom and Micom Communications Corporation.

"The fast adoption of wireless technologies necessitates the need for performance analysis tools to address large scale WLAN deployments," commented Jim Kinnebrew, vice president of sales for VeriWave. "I am excited to join the VeriWave team who have a deep technological understanding of the WLAN space and the experience needed to help Network Equipment Manufacturers and Service Providers develop and deploy the right products in a timely fashion."

"We are very excited to welcome Jim Kinnebrew to the VeriWave team," said Chris DeMonico, chief executive officer. "Jim's experience in selling network test systems to equipment manufacturers, carriers and enterprise network managers will be instrumental in expanding VeriWave's domestic and worldwide reach. Jim's

familiarity with performance testing and extensive experience working with the major network equipment manufacturers will contribute significantly to VeriWave's strategic customer relationships."

About VeriWave

VeriWave is the leading provider of test systems for performance analysis of wireless local area network (WLAN) products. VeriWave's products are used by equipment manufacturers to accurately analyze the performance of their products, as well as by carriers and enterprise users to make the right choice when selecting WLAN equipment for deployment in their networks.
