

ZyXEL Standardizes on VeriWave to Test Mobile Wireless Infrastructure

Portland, OR. April 10, 2007— Leading provider of complete broadband access solutions for service providers, businesses, and homes, ZyXEL, announced today its decision to standardize its wireless functional and performance testing around VeriWave's comprehensive Wireless LAN (WLAN) testing tools.

ZyXEL provides smart AP solutions and centralized WLAN controller systems. Adopting the new Voice over WLAN (VoWLAN) technology, ZyXEL business WLAN solution ensures high quality and convenient applications such as text messages, voice and video conference features of instant messengers through the WLAN. The solution also boasts "Zero-Delay" roaming and "guaranteed throughput" for business users enjoying the highest quality triple-play service on WLAN.

VeriWave's WaveTest™ 90 offers ZyXEL the complex traffic and usage conditions needed to test solutions optimized for the rigorous requirements of service providers and businesses. These include extensive client mobility, security, varying traffic volumes, and triple-play services with guaranteed Quality of Service delivery.

ZyXEL's commitment to utmost product quality was achieved in the development of their new line of high speed mobility and triple-play capable wireless devices, using the extensive test coverage offered by the VeriWave WaveTest 90 platform.

VeriWave's WaveTest™ WLAN performance analysis system is designed to reduce test cycles from days to minutes. By offering an automated test environment which controls the test equipment as well as the system being tested, comprehensive verification of any wireless system is possible.

About ZyXEL Communications

ZyXEL Communications Corp. (TSE: 2391), headquartered in Hsinchu, Taiwan, is the world's largest residential gateway provider (In-Stat, 2006). ZyXEL's comprehensive Internet Protocol-based (IP) networking solutions include access multiplexors, customer premise equipment, Internet security and Wireless LAN equipment, enabling high-performance network services for SOHO, small to mid-sized businesses and service providers. ZyXEL works closely with worldwide network equipment vendors, telecommunications companies, ISPs, and other major businesses.
